**Subject:** RE: Submittal of EPA Work Plan and Associated Documents

Thanks. When can I expect the information you indicated below will be provided?

With respect to the Town's response regarding painted surfaces, please be aware that EPA's approvals did not specifically address the paint. Further, no specific information pertaining to PCBs and paint was discussed in any of the documents reviewed. As previously indicated to the Town, the responsibility for ensuring management and disposal of regulated PCBs under 40 CFR Part 761 remains with the Town.

I am also in receipt of a recent court order allowing Standard Demo to collect certain samples for analysis. Please let me know how this effects any work you are currently proposing and/or changes any work at the Site.
